DETAILED ACTION

1. Claims 1-20 are in the application.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 2, 4, 8, and 15-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 2 the recitation of “previous claims” makes this claim indefinite for there is only one claim preceding this claim.

In claims 4, 5, 8, 16, 17, 18, 19, and 20, there is no proper antecedent for “the hooking means”.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1, 12-14 rejected under 35 U.S.C. 103(a) as being unpatentable over Green.

Green discloses a harness suitable for use on watercraft comprising a basic element 30 coupled to the harness; a hook 20; the basic element including a first piece (bolts on element 30; and a second piece 26 that can be disconnected from the first piece; the first piece is coupled to the second piece by means of the nuts secured to the bolts.

Art Unit: 3617

Allowable Subject Matter

6. Claims 9-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
